CHANGE MAKERS LAB H&M GROUP 2019

A deep dive into fossil free transports

At Change Makers Lab 2019

**Speeding towards a 2 degrees hotter world.
Can transport of retail goods cross the fossil free finish line in time?**

Join this inspirational event arranged by H&M in Berlin on the 5th of April! The event will host plenary speeches, panels and interactive sessions. One of the topics to be discussed is if transports can cross the fossil-free finish line in time to meet the Paris agreement. During this high-level seminar we will discuss the unprecedented pace of new technology adoption and changed behavior required to transform the transport sector.

Introductory speaker: Eric Hannon, Partner, McKinsey, Frankfurt

Panel – The solutions with Emma Nehrenheim, Chief Environmental Officer, Northvolt, Åsa Pettersson, Head of Public Affairs & Sustainability, Scania and Pierpaolo Cazzola, Senior Energy and Transport Analyst, The International Energy Agency

Panel – Reduce CO2 emissions from transports with Kathrin Brost, Global Head of Go-Green, DHL Global Forwarding, Massimo D'Alessandro, Director – Sustainability and innovation, HAVI, Sophie Punte, Executive Director of the Smart Freight Centre and Chris Hall, Global transport manager retail, H&M-group logistics

Panel – Does policy making drive the change fast enough? With Ottmar Edenhofer, Director, Potsdam Institute for Climate Impact Research (PIK), Alexandre Paquot, Head of Road Transport Unit, DG Climate Action, European Commission, Marc Hoffmann, CEO E.ON Sweden

Closing note Ottmar Edenhofer, Director, Potsdam Institute for Climate Impact Research (PIK)
